

STRINGO®

THE ORIGINAL VEHICLE MOVER

Stringo DuoMover

THE FOUR-WHEEL SOLUTION
FOR PROFESSIONALS

The Stringo DuoMover is intended for those seeking a fast four-wheel solution combined with the flexibility of the Stringo Vehicle Mover. The system provides you with a simple and optimal setup for the safe maneuvering of all four wheels of a vehicle with the axel weight up to **1500 kg** (3306 lbs).

- 1 Move vehicles with all four wheels locked.
- 2 Electric loading in less than 1 min.
- 3 Climb over 20 mm obstacle.
- 4 Safe and agile maneuvering.
- 5 A one person operation.

“For over three decades now, we have focused on just one thing – moving cars as efficiently, easily, and safely as possible.”

Ready to go!

Stringo and its operator can in a minimal period of time, move a wide range of vehicles in the most confined spaces with ease, superior safety, and zero pollution. All Stringo models are easy to operate – just load the DuoMover's, drive a Stringo up against the tires, press a button on the handle, and you're ready to go!

Technical Data **Stringo DuoMover**

INFORMATION

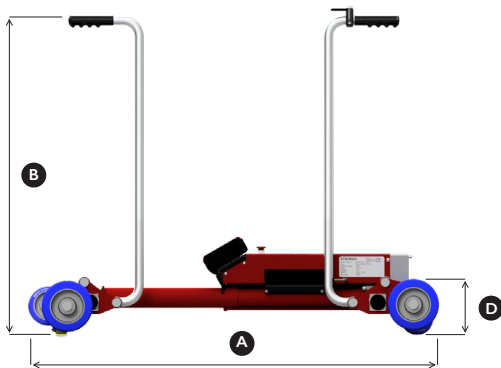

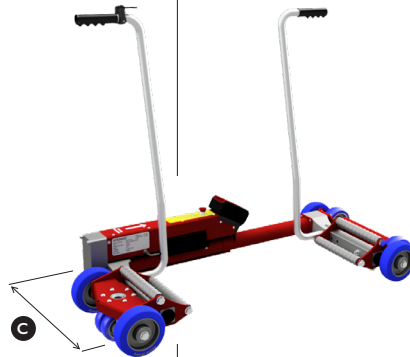

Max load/unit	750 kg / 1654 lbs
Max obstacle height	20 mm / 0.78 in
Max tire diameter	820 mm / 32.2 in
Min tire diameter	580 mm / 22.9 in
Max tire width	295 mm / 11.6 in
Min ground clearance	D 140 mm / 5.51 in

ELECTRIC SYSTEM

Motor	Brushless DC
Battery	Lithium-ion 18v 4.0 Ah

MACHINE DIMENSIONS

Length	A 1000 mm / 39.4 in
Height	B 800 mm / 31.5 in
Width	C 475 mm / 18.7 in
Weight	25 kg / 55.1 lbs

Features

ELECTRIC LOADING

Effortless, safe on-off loading procedure. Just the press of a button away.

GUIDING & CLIMBING WHEELS

Wheel positioning ensure safe movement and enable smooth transition over 20 mm obstacles.

ERGONOMIC HANDLES
